Conditional Access

Access based on a set of conditions that must be met

Very granular control of who can access and how.

- ❖ Only from a certain computer
- ❖ Only a certain group of people
 - ❖ Everyone? Managers only?
- ❖ Only with Antivirus software
- ❖ Only with MFA
- ❖ Only with fully updated computers
- ❖etc

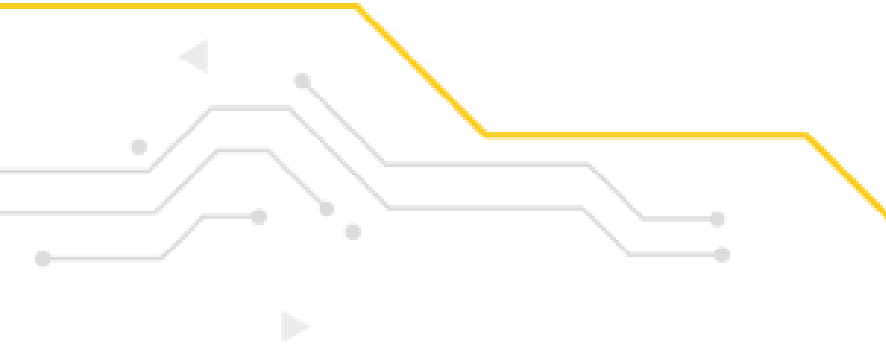

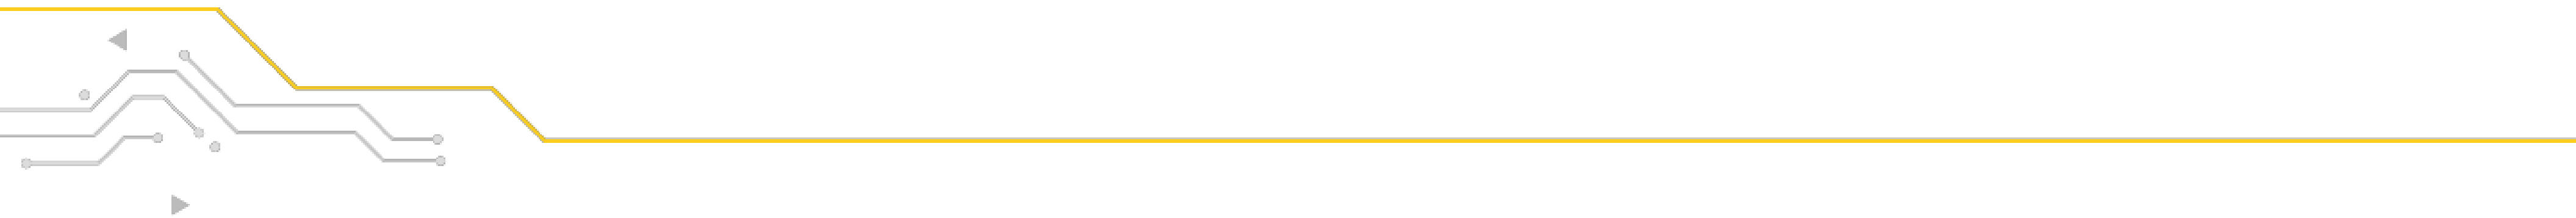

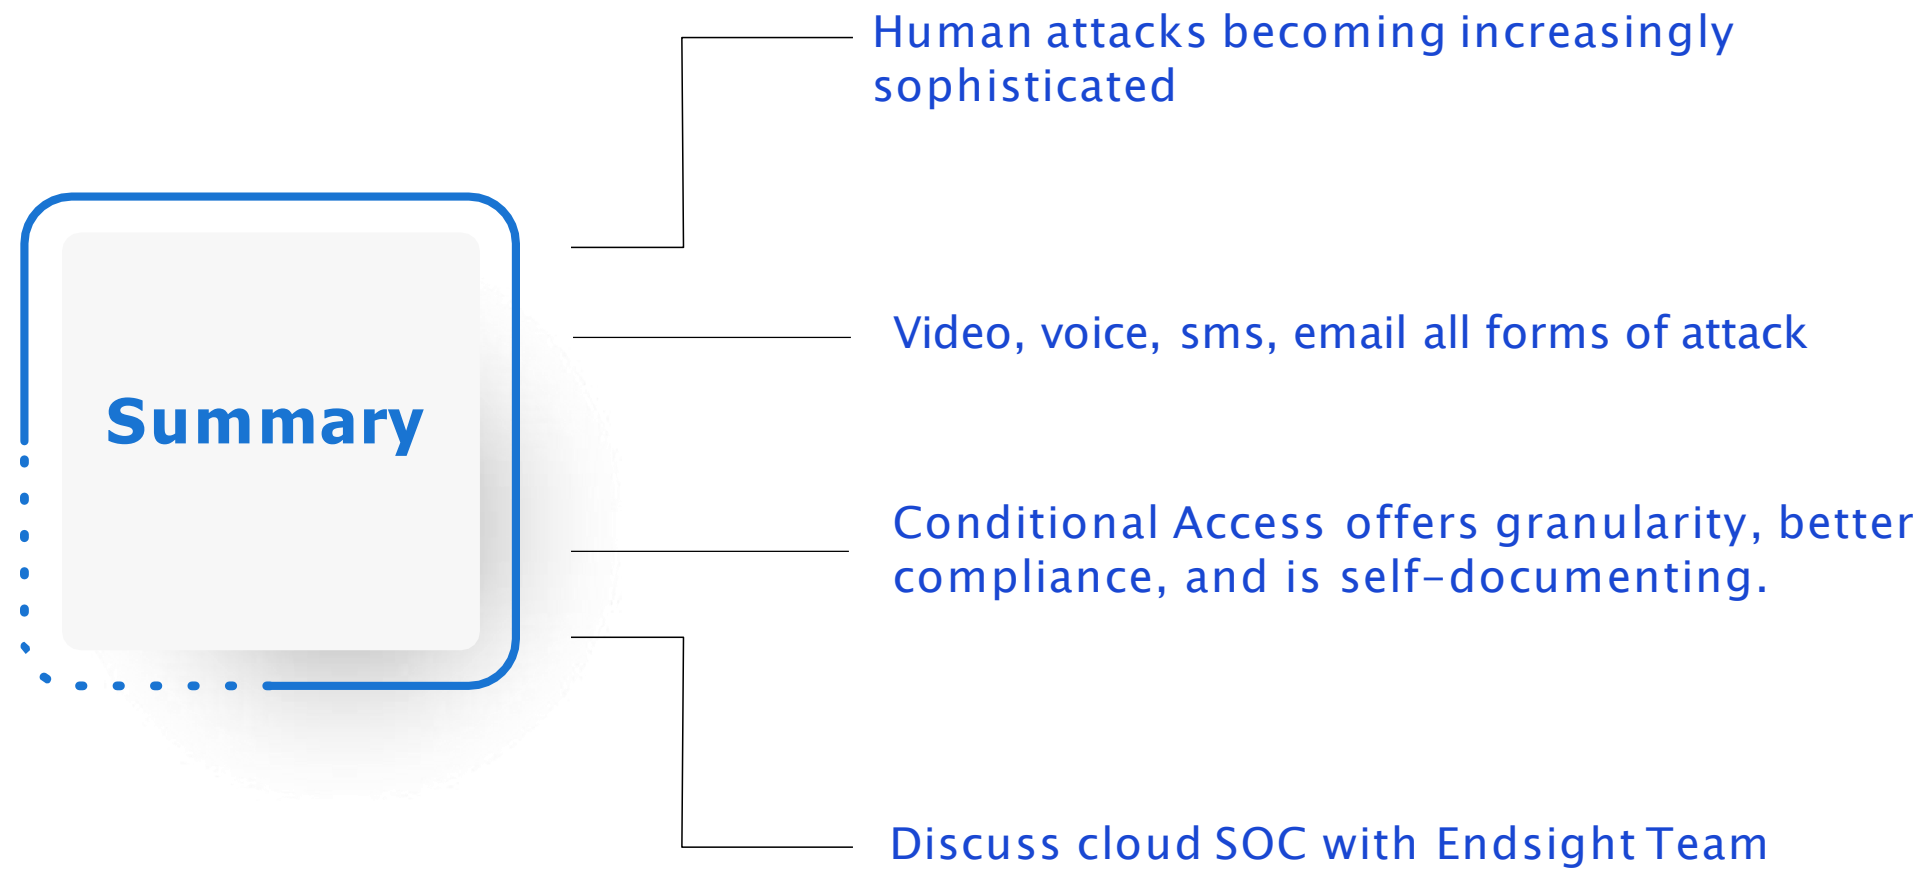

Conditional Access, continued

3 Common policies

- ❖ Prevent logins outside the US
- ❖ Require Multifactor Authentication
- ❖ Prevent legacy logins

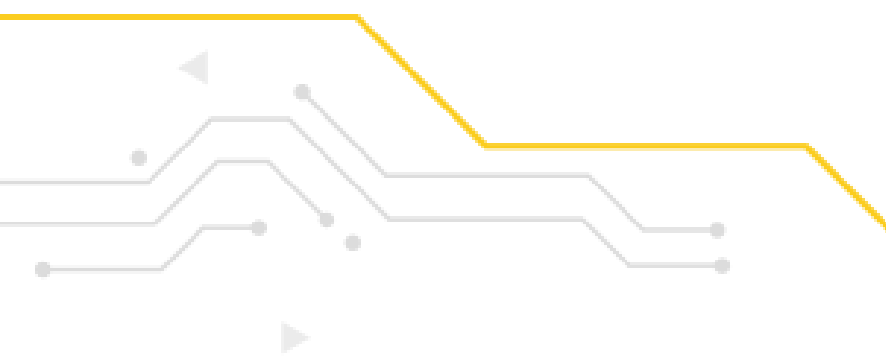

Benefits of CA versus Legacy

- ❖ Far more granular control allowed, including exceptions
 - ❖ Automatic documentation for insurance and regulatory compliance
 - ❖ "Opt Out" configuration vs "Opt In"
- 

Q & A

Pre-Submitted Questions

- ❖ What can I install on my computers to keep me safe from malicious websites and emails?
 - ❖ How can we make sure employee personnel files are secured from hackers, threats, etc?
 - ❖ I'm curious about the Cloudflare failure in relation to the Okta breach via Jira
-

What's next?

- ❖ This is very complex to say the least, however the good news is that you don't have to do this alone!
- ❖ Let's continue the conversation, Endsight is here to help!
- ❖ In the poll or survey, select yes if you want to connect with an expert to further discuss.
- ❖ We will also send a follow up email that you can reply to.

The logo for endsight, featuring the word "endsight" in a lowercase, sans-serif font. The "end" is in yellow and "sight" is in blue. To the right of the text is a small icon consisting of a cluster of dots, with the top-right dot being yellow and the others blue. The logo is positioned on a white rectangular background that has a grid of small blue dots on its left side and a decorative border of white lines and dots on its top and right edges. Below the white background, there are white circuit-like lines and a grid of blue squares on a dark blue background.
